

IMAGING

PLENARY - March 15, 11:00 - 12:00

Medical Imaging 2030 – Imaging in Precision Medicine of the Future

Precision Medicine of the Future: The role of Imaging – Global perspective: Trends, key issues, transformations, challenges and opportunities

The changing role of the Radiologist and Interventionalist in the digital era

Medical imaging 2030: Enabling/disruptive technologies

Imaging data banks and cohorts – key issues in population imaging, radiomics and artificial intelligence

AGORA - March 15, 13:30 - 14:30

Artificial Intelligence in medical imaging: Transformation or evolution

AGORA - March 16, 09:30- 10:30

From augmented imaging to mixed-reality cockpit

WORKSHOP - March 15, 17:15- 18:15

Program currently in development

WORKSHOP - March 16, 10:45- 11:45

Image guided-therapies
